MEDICINAL

THE POWER OF SUNLIGHT

The best disinfectant of all is sunlight. It destroys by its very brightness all sorts of germs and at the same time helps the growth of plants and animal life. Doubtless all have noticed that mould grows during the night and in dark, damp cellars. Bright sunlight quickly destroys germs, mould or other organisms. That is why it is best to let the sunlight into your house for its purifying influence.

At the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., Dr. Pierce, chief consulting surgeon, started experiments, some three years ago, with the Finsen light in conjunction with the X-ray in the treatment of diseases. He got excellent results, and was among the first to adapt this remarkable cure to many cases which it was formerly supposed must of necessity be treated by the knife.

Not only is Dr. R. V. Pierce notable for his surgical achievements at his hospital in Buffalo, but nearly a third of a century ago he discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that would be easily procured and ready to use. This he called Dr. Pierce's Golden Medical Discovery. It maintains the patient's nutrition by enabling him to eat, retain, digest and assimilate nutritious food. It overcomes gastric irritability and symptoms of indigestion, and in this way fever, night-sweats, headaches, etc., are done away with. It fortifies the body against the germs of consumption, grip and malaria. It builds up the tissues and puts on healthy flesh.

Those desiring to know something about the body in health and disease, also medicine and surgery, without technicalities should read the "Common Sense Medical Adviser," which can be had for 31 cents in one-cent stamps for the cloth-bound book. Address Dr. R. V. Pierce, Buffalo, N. Y.

Hungarian Arrested in Virginia.

Dr. Francis Papp, a Hungarian, who is charged with the robbery of the post-office in the city of Budapest, Hungary, has been captured at Norton, Va., according to the Baldwin detectives. This capture of the man supposed to be the notorious Hungarian is the consummation of a long chase that extended half way around the world. According to the story told by the detectives, Dr. Papp eloped with the daughter of the postmaster of Budapest. The postmaster is a considerable personage in this capital city of Hungary and the elopement of his daughter with the doctor caused a great sensation. At the same time that the postmaster lost his daughter he found that \$22,000 of the funds of the postoffice was missing. He ascribed the taking of this large amount to the man who had eloped with his daughter. Despite the vigilance of the European police, the couple escaped on a steamer sailing for America. The police were waiting on this side of the ocean to capture the alleged embezzler, but again the doctor foiled the authorities. How the Hungarian couple came to select the mountain region of Virginia as the place where they would be safe from pursuit is not explained. A considerable reward was offered for them, and the detectives have never lost the hope of some time capturing the couple. The man arrested at Norton is said to answer closely the description of Dr. Papp. He will be taken at once to New York, with his young wife. There the method of their return to Hungary will be decided.

Killed Father's Murderer.

Additional reports of the tragedy in Tatnall county, Ga., Saturday, in which A. J. Edwards was killed and Coy Edwards beaten by the negro, Davis, say that the wife and mother of the two men notified Eugene Edwards of the occurrence when he returned from a hunting trip. He started in pursuit of the negro, catching him just as he got alongside a wagon. Edwards fired, the load striking the negro, who returned the fire. The negro, dodged behind the horses' heads and Edwards behind the tail of the wagon. With Kray ducking between them, they fired as they caught sight of each other. Edwards was wounded in the face by a splinter knocked from the wagon body by one of Davis' bullets, but the boy kept firing and reloading, using birdshot. Not until the third load struck the negro did he reel and stagger to the road fence, whereupon the boy ran to him and emptied both barrels of his gun into his body. Then he jumped upon the negro's body and stamped out any life that remained. A great crowd gathered and wanted to burn the body of the negro and lynch his family. Counsel of cousins of the Edwards family prevented this, however, though the crowd was particularly incensed because it was said that Davis was from Bulloch county, where he had belonged to an alleged "Before Day" club that was said to have brought about the murder of the Hodges family and the burning of their home.

Woman Slain With Water Bottle.

A murder was discovered in White inch, a suburb of Glasgow, Saturday morning. The victim was Miss Louise McArthur, a woman of fifty, who kept the Oswald Dairy in Dumbarton road, and lived alone in a small kitchen behind the shop. It is believed that she closed the shop at her usual hour of 10:30 on Friday night. Soon afterwards screams were heard by the people who live over the shop. No notice was taken of them, however, as they were attributed to the children of the family in the tenement above. When the girls who deliver the milk arrived at the usual time Saturday morning they found the shop shut. They knocked repeatedly both at the shop door and at a side door, but no one answered. One of the girls obtained a key, and, accompanied by a neighbor, went into the shop. It was obvious from the confusion that something unusual had happened, and the police were summoned. A detective found Miss McArthur's body huddled up behind the counter with the skull fractured. Three aerated water bottles were found lying in a pool of blood beside the body and it is believed that the crime was committed with one of them. The place had been ransacked, and all the money carried off, but Miss McArthur's gold watch and several other valuable articles had not been taken.

Mothers everywhere praise One Minute Cough Cure for the sufferings it has relieved and the lives of their little ones it has saved. A certain cure for coughs, croup and whooping cough. L. A. One Minute Cough Cure quickly relieved and cured her and I cannot praise it too highly." Chronic Diarrhoea Cured.

Mr. Walter Richardson, of Troutville, Va., had an attack of diarrhoea that came near ending his life. It soon cured him and he now recommends that preparation whenever an opportunity offers. For sale by Gibson & Timberman and W. F. Creighton & Co., druggists.

Catarrh and Hay Fever.
